

Sarlink Quality TPVs Greenest Choice for Wire and Cable

Improving your Product Quality and Environmental Impact

Sarlink Quality TPVs are the environmentally friendly choice for covering wires and cables and provide a reliable, top quality replacement of PVC and TPUs.

Sarlink TPVs are a blend of polyolefins, making Sarlink a greener replacement for materials such as PVC and TPUs, which have proven environmental and human health costs. Sarlink TPVs address these environmental and quality issues with regards to PVC and TPUs in the following ways:

- Better life cycle performance
- No organic chlorine
- No heavy metals (meets ROHS requirements)
- No phthalate esters
- RoHS compliance
- No dangerous residues on oxidation
- Easy recycling

Improve Your Environmental Position

Sarlink helps producers develop greener ways to make existing products. At Sarlink, we continue to develop compounds for a variety of uses and provide support to players in the global business chain to develop more environmentally friendly means of production. Sarlink TPVs offer consumers across industries a unique business opportunity to improve both their production efficiency and the environmental impact of their products.

Improve Your Part Performance

Other important properties of Sarlink for Wire and Cable are:

- Good weather resistance
- High ozone and oil resistance
- Good flexibility
- Recovery of cable
- Excellent touch properties
- Long term aging resistance
- High tear resistance

We are the experts on high quality TPV production and practical application support. You are the expert on your applications. Together we can develop an endless range of possibilities, many yet to be explored. Whatever your intended purpose, using Sarlink in the manufacturing process will optimize the quality of your performance.

Contact

Sarlink Quality TPVs continuously exceed expectations in quality and performance. Our customer support resources can assist you from preliminary design to plant floor processing, making us the ideal partner for your upcoming program development. If you have a project that could benefit from a Sarlink partnership, please contact us. We look forward to working with you.
